Passepartouts and cornices

You can also order passepartouts and/or cornices to enhance the wardrobes. Full passepartouts are available for sliding door robes. For hinged door robes, you can either order just cornices, or passepartouts as well provided you include additional side uprights. Although shelves can be installed with a depth offset, the cornice can still remain flush with the front. Please bear in mind that corner robes with cornices can only be fitted between hinged door robes (not possible with sliding door robes!). Passepartouts are not possible at all between wardrobe units and on corner robes!

Layout examples and space requirement for corner robes combined with hinged and sliding door robes

The sliding and hinged door robes in the Essensa range can also be easily combined around a corner using the two optional (45° and 90°) corner robe variants. Please bear in mind that different space requirements and total dimensions apply, depending on the wardrobe configuration and layout (see examples below).

Corner robe 45°

Options for adding hinged door and corner robes to sliding door robes

The Essensa wardrobe range allows you to arrange wardrobe units in the sequence you want. If, however, you wish to place a hinged door or corner robe next to a sliding door robe, you must always include a compensating profile between the units to ensure faultless operation of the doors.

No additional vertical trims next
to the handle strips on sliding
